**THE VERY SPECIAL GIFT IDEA**

*Forget everything you think you know about Robin Hood and his gang.*

*Of course, the green hero's a big fan of justice. And also his buddy Little John is in Sherwood Forest from the party. But otherwise? Especially the hustle and bustle around the oh so beautiful Maid Marian he can't understand at all. And also the maid doesn't have any personal interest in the ranger. The lady has completely different problems. For example with the bodyguard, who doesn't leave her side even in her sleeping chamber on the order of Prince John. But luckily there are still a few guests present who will certainly be happy to help her, such a charming princess. Susann Mädler in an amusing double role.*
